

# Town of Newmarket--Conservation Lands

## Conservation Lands- Level of Protection

Shoreland Conservation Districts-- 125' Buffer from Shore

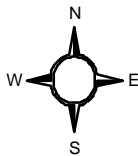

Conservation land, protected from development through conservation easement, restrictions, or outright ownership by organization or agency whose mission includes protecting land in perpetuity; more than 50% of area will remain undeveloped.

Unofficial conservation land. Owned by an agency or organization whose mission is not conservation, but whose intent is to keep the land for conservation, water supply protection, passive recreation, or educational purposes.

169-53 Unique Identifier that relates to data attributes of Conservation parcel. Refer to Newmarket Conservation Lands database report.

2000 0 2000 4000 Feet

The conservation lands data layer describes parcels of lands which because of conditions of ownership of federal, state, or local government, conservation organization, or other entity, in fee simple or less than fee, e.g. conservation easement, are essentially protected from being completely developed. The associated data file for this data layer contains information on the level of protection for each land holding.

The data development has relied on several sources, including the USGS Digital Line Graphs (1:24,000 scale) parcel boundaries, Society for the Protection of NH Forests records, as well as original deeds and tax maps. Parcel boundaries were compiled on 1:24,000-scale, mylar quad overlays in preparation for automation.

This data has been updated February 2000
